### **RULING ON ENTITLEMENT<sup>1</sup>**

On April 9, 2021, Tom Thompson filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*<sup>2</sup> (the “Vaccine Act”). Petitioner alleges that he suffered Guillain Barre Syndrome (“GBS”) as a result of an influenza (“flu”) vaccine received on or about October 7, 2019. Petition at 1. Petitioner further alleges that the vaccine was received in the United States, he suffered the residual effects or complications of his condition for more than six months, and Petitioner has not received compensation in the form of an award or settlement, or filed a civil action, for his vaccine-related injuries. Petition at ¶¶ 4, 14, 15. The case was assigned to the Special Processing Unit of the Office of Special Masters.

<sup>1</sup> Because this unpublished Ruling contains a reasoned explanation for the action in this case, I am required to post it on the United States Court of Federal Claims' website in accordance with the E-Government Act of 2002. 44 U.S.C. § 3501 note (2012) (Federal Management and Promotion of Electronic Government Services). **This means the Ruling will be available to anyone with access to the internet.** In accordance with Vaccine Rule 18(b), Petitioner has 14 days to identify and move to redact medical or other information, the disclosure of which would constitute an unwarranted invasion of privacy. If, upon review, I agree that the identified material fits within this definition, I will redact such material from public access.

<sup>2</sup> National Childhood Vaccine Injury Act of 1986, Pub. L. No. 99-660, 100 Stat. 3755. Hereinafter, for ease of citation, all section references to the Vaccine Act will be to the pertinent subparagraph of 42 U.S.C. § 300aa (2012).

On February 18, 2022, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent agrees that "petitioner has satisfied the criteria set forth in the Vaccine Injury Table ("Table") and the Qualifications and Aids to Interpretation ("QAI"), which afford petitioner a presumption of vaccine causation if the onset of GBS occurs between three and forty-two days after a seasonal flu vaccination and there is no apparent alternative cause." *Id.* at 3. Respondent further agrees that "based on the medical records outlined [in the Rule 4(c) Report], petitioner suffered the residual effects of his condition for more than six months . . . . Therefore, based on the record as it now stands, petitioner has satisfied all legal prerequisites for compensation under the Act." *Id.* at 3-4.

**In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.**

**IT IS SO ORDERED.**
